

TV's for the Vets

On behalf of all Veterans of Montana and all those who use the VA Medical Center, the VA Community Based Outpatient Clinics (CBOCs), and the VA Nursing Home, we are asking for your assistance. These VA facilities need new Televisions for inpatient rooms and waiting areas. Financial donations are necessary to make this happen. The Ft. Harrison VA Medical Center, the parent facility for the other veteran facilities listed, does not have the funds to replace the current TVs, which were manufactured in the 1980's or earlier. The TVs currently in place are outdated and are not compatible with new technology or current trends in electronics. Frequently, TVs serve as the only entertainment or news source for bed-ridden patients.. Ambulatory patients rely on the TVs as well. The total budget needed to replace the current TVs and provide future maintenance is over \$90,000. If every man, woman, and child in Montana donated just \$1.00 towards the program, the system could be updated in a timely manner.

If you would like to help our funds grow and make this happen, please make your tax-deductible donation payable to the VA's General Post Fund 8806 and mail it to:

VA Ft. Harrison
c/o Volunteer Services
1892 Williams St.
Ft. Harrison, MT 59636

If you have any questions, feel free to call me at (406) 459-9

We look forward to a bright future with your help.

Sincerely,

Daniel J. Koehl
VAVS Representative
