**Governor Bullock Applauds State Department Decision on Keystone XL Pipeline**

(Helena)—Governor Steve Bullock released the following statement on the U.S. State Department's decision on the Keystone XL pipeline:

"I'm pleased that the State Department, after conducting an environmental study, has given this important project an initial green light and I appreciate the thoughtful review the project has been given. I've said all along that if done right, and private property rights are protected, the Keystone XL Pipeline will create much-needed jobs, advance our domestic energy security and add to the vitality of our rural communities. I look forward to seeing this project continue to move forward."
